

TECHNICAL SPECIFICATIONS

EXTERIOR GRADE ALUMINIUM

SolaSkirt is cut from durable, exterior grade aluminium sheet (1050 H14) in Bristol, England.

BLACK POWDER-COATING

A matte black powder coating (RAL9005) is applied to the skirt in Cardiff, Wales, ensuring a durable, weatherproof and UV-resistant finish.

SMART CLAMPS

We supply 2 versions of our single and double clamps, to fit all panels:

- V1 - to fit 40-50mm frame
- V2 - to fit 30-40mm frame

SKIRT DIMENSIONS

SolaSkirt is supplied in standard lengths, measuring: 1,195mm(L) x 160mm(W) x 1.5mm (D).

PRE-CUT CORNER KITS

Pre-cut corner kits are designed for use at the corners of your array (both internal and external), making installation even easier.

VENTILATED CHIMNEY PIECES

To aid with air flow, 'Chimney' pieces are also available: standard length skirt, which has been perforated with holes for ventilation.

20-YEAR WARRANTY

Our products are accompanied by a 20-year warranty, guaranteeing their longevity, quality and reliability.
