

PREMIUM PIGEON PROOFING FOR SOLAR PANELS

Background

Pigeon proofing has increasingly become a necessity in recent years, with more and more pigeons choosing to nest under our solar panels. They create unwanted noise, make a mess and damage cables.

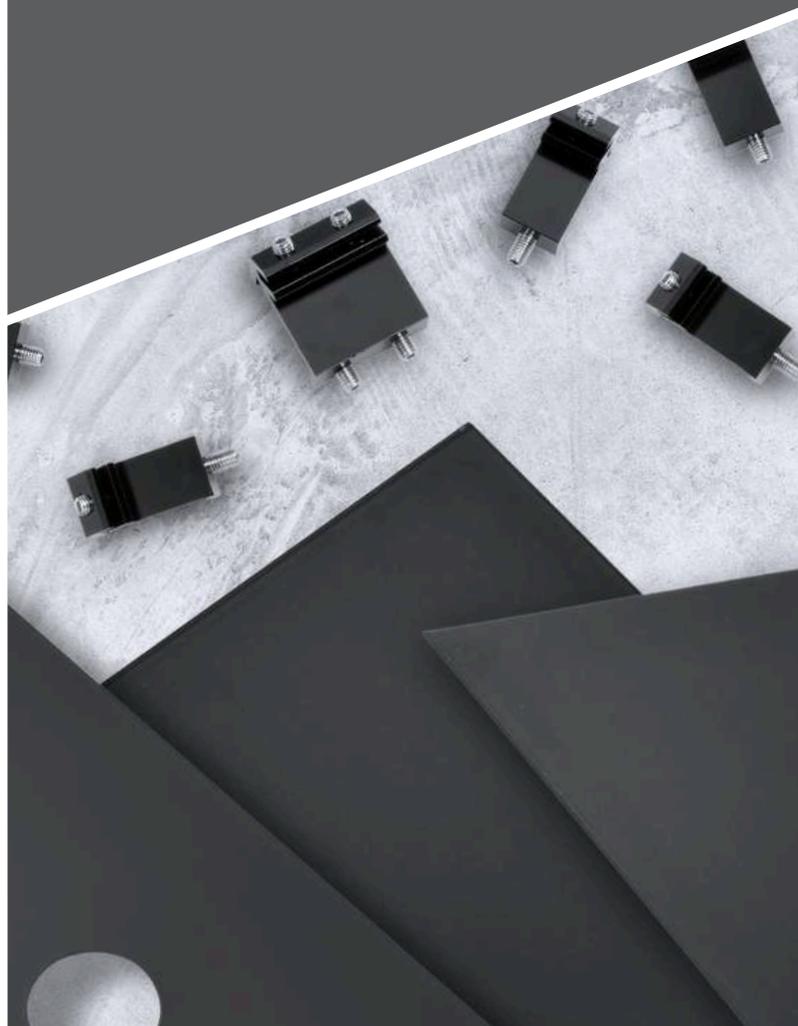

Unfortunately, the majority of pigeon-proofing systems don't enhance the visual appeal of solar panels. That's why we designed SolaSkirt... a pigeon-proofing solution that gives solar panels a sleek, polished appearance, blending perfectly with the panels it surrounds.

Production

SolaSkirt is made from aluminium sheet which is cut to shape in Bristol and then powder-coated in Cardiff.

The matte black powder-coating is heated to 200 degrees Celsius, forming a complex gel layer. The skirt is then force-cooled to produce a durable, long-lasting finish.

Our smart clamps are also made from black powder-coated aluminium, integrating with both the solar panels and the SolaSkirt.

Outcome

SolaSkirt is a durable, UV and weather-resistant system made from exterior-grade, black powder-coated aluminum.

Seamlessly combining aesthetics and functionality, SolaSkirt hides unsightly gaps, rails, and cables beneath solar panels while keeping pigeons at bay.

Importantly, SolaSkirt can be fitted with all types of roof tiles and solar panels without affecting existing solar system warranties.

Benefits

Unlike traditional methods that can involve unsightly barriers, SolaSkirt combines aesthetic appeal with unrivaled solar panel protection.

With hundreds of 5-star customer reviews, SolaSkirt stands out as the premium choice for solar panel pigeon-proofing. Its innovative design and focus on build quality have earned it widespread acclaim, making SolaSkirt the go-to option for those seeking superior protection for their solar panels.

Customer reviews

The black SolaSkirt compliments the all-black panels and makes the whole installation look fantastic. It's also the ultimate deterrent to those pesky pigeons we were having a problem with.

Chris Hands
SolaSkirt customer

A high quality and visually appealing product... Best of all, the pigeons have pushed off!

Paul Sims
SolaSkirt customer

Aesthetically you couldn't wish for a better finish - and we are already seeing the real time benefits.

Tony Sage
SolaSkirt customer

Had my SolaSkirt fitted yesterday and absolutely over the moon with it. It looks first class.
